TOTAL		

SCORING

- 7 – 10** Include on recommended itinerary for the motorcycle route. Businesses scoring at this level should be ambassadors for the motorcycle route, and should be consulted each year on the route’s development and maintenance.
- 4 – 6** Ideal alternate, or recommended, depending on the total number of highly ranked businesses on the route.
- 1 – 3** Not on the recommended route. Further development of restaurant should be undertaken if this establishment wishes to attract the motorcycle market.

NOTES

Please return the completed form to your local or regional route coordinator:
